

Marmo Grande

Extra large, Endless possibilities

MAIN COLLECTION I

Marmo Grande

extra large . endless possibilities

Marmo grande is an extra large format porcelain based surface covering material. Created with cutting edge italian engineering production, this material offers extra large format, versatility for designs and superior physical performance. Not only does it allows seamlessness with less joints, the material also possesses high physical strength, high resistance to scratches, heat, UV, and stain. This is the perfect surface covering material that offers a combination of many advantages and endless possibilities to the world of design.
